

## Message from the Chair, Andrew Wright

# Final Push Provides Energy to Campaign Cabinet

Some recent major gifts towards the Road to Triumph Campaign have provided a final boost of energy to the Campaign Cabinet Team. With contributions of \$100,000 or more the Cabinet has secured much needed support from Sun Life Financial and The Temerty Family Foundation as well as the McDonald Family (Lori Thomas, Calgary AB, Mark McDonald & Paul McDonald, Guelph, ON). The Cabinet was also fortunate to receive confirmation that Ariel Walker has supported the campaign at the major gift level. Thank you very much for your support.

These recent pledges to the *Road to Triumph* Campaign have provided a wonderful boost to our team as we near the completion of the campaign. By the end of December 2007 we plan to achieve the goal that we agreed to in order to help the Huntington Society of Canada build relationships with corporate and other major donors. We anticipate maintaining our relationships with our donors after the campaign has come to fruition so, your support will still be crucial as we strive for a cure for Huntington disease.

The Cabinet still has work to do and we will continue to volunteer whole-heartedly for the Huntington Society of Canada in securing more support. Let me take this opportunity to once again thank those that have supported our efforts as well as the volunteer Cabinet members. You have given me an experience of a lifetime and one that I will cherish forever.

The Huntington Society of Canada will be hosting a casino night in late November in Toronto. I hope you are able to attend, as I would very much enjoy meeting old friends and making new ones.

Following the conclusion of the *Road to Triumph* Campaign I have great faith and confidence in Don Lamont, C.E.O. of the Huntington Society of Canada and his team. They have taken great strides in moving this organization to a point where more money than ever before is being invested towards Huntington disease research. More partnerships have been built with stakeholders that have a vested interest in eradicating this disease. More people are becoming aware of the Huntington Society of Canada and Huntington disease. I applaud Don's and his teams' efforts.

I truly believe we are on the cusp of something special. I think the future provides great promise to those living with Huntington disease. With more research being done here in Canada and throughout the world it's only a matter of time before we can celebrate our hard work.

I urge you to stay strong and stay positive. The best is yet to come.

Andrew Wright
